Front-End Developer
Responsive design | Communication | Collaboration

All it took was writing one line of code, and I knew I was hooked. A self-driven, and determined developer, I continually crave new knowledge, complex problems to solve, and staying on top of new technology. I am looking for the right opportunity to develop my career, and provide quality solutions.

- HTML5
- CSS3
- Javascript
- Bootstrap

- Git / Github
- Learning React
- Windows Server 2016
- Jira Ticketing System
